

IAEE

Energy, Covid and Climate Change

the first IAEE digital conference

THE INTERNATIONAL ASSOCIATION FOR ENERGY ECONOMICS IS PLEASED TO INVITE YOU TO THIS CONFERENCE ON 7-9 JUNE 2021 ONLINE

An ideal climate and energy policy regime should simultaneously address possibly conflicting objectives: ensuring energy security, promoting universal access to affordable energy services, and fostering greener and sustainable energy systems.

These policies notoriously have heterogeneous impacts on states, consumers, factor prices, energy technologies and existing assets like fossil reserves and carbon-intensive capital stock. Building credible and effective policies is a difficult task and needs to take into account geopolitical, economic and environmental realities to make them acceptable especially in COVID times.

Against this background, the pressing quest for credible and sustainable solutions requires rapid development of deep and broad analyses of policy instruments and institutions. It requires a broad mobilization of the concepts and notions used in economics, natural sciences, humanities or other social sciences to inform the numerous public policy debates affecting international energy trade, environmental regulation, markets vs. government intervention, energy infrastructure and technology choices.

What is the IAEE online conference?

The IAEE International Online Conference aims to be a bridge between the latest science in energy economics and its relevance to practical hands-on experience in the energy sector. The digital edition addresses a wider global audience, enhancing the event experience and offering several opportunities for networking, interaction and knowledge exchange across all the different topics, audiences and time zones.

IMPORTANT DEADLINES

Deadline for abstract submission: 1 April 2021

Abstract acceptance: 15 April 2021

Full paper needed: 1 June 2021

Submit your abstract at iaee2021online.org
For further information, please contact:
iaee2021@oyco.eu

All the accepted Abstracts of the Paris 2020 conference will be accepted upon request. Please confirm your participation by registering on our website.

Who Should Attend

The conference is intended for:

- Academics and scholars working in the fields of energy, natural resources or environmental economics,
- Policy makers and officials in governments, international institutions and regulatory agencies,
- Energy analysts working for local authorities, development agencies, consumer bodies, NGOs,
- Business leaders and practitioners.

Join us online

The conference provides a unique online platform for academics, policy-makers and business leaders from around the world to present and discuss the latest economic research on pressing energy issues in an open and nonpartisan setting. The conference also welcomes the many environmental and natural resource economists working on these topics.

Call for papers

From a methodological perspective, the conference welcomes contributions based on: analytical models, econometrics, experiments, surveys, rigorous institutional analyses and case studies, simulation models, equilibrium models, optimization models. Interdisciplinary works with all areas of the natural, social or engineering sciences are also welcome.

Registration Fees (non-refundable)

- Presenter (IAEE member): **300€**
- Presenter (non-member): **390€**
- Presenter (student): **200€** (includes one-year IAEE digital-only membership)

- Delegate (IAEE member)
- **35€** (3-day/full conference)
- **20€** (single day)
- Delegate (non-member)
- **125€** (3-day/full conference)
- **110€** (single day)
- Delegate (student)
- **25€ for 3-day** (includes one-year IAEE digital-only membership)

Online Venue

The online Conference will take place from Monday 7th June to 9th of June 2021. Sessions will run from early morning to late evening in Continental Europe Time (CET) to facilitate international covering of the event.
